

Talks by Jean Frías

Mechatronics engineer · Entrepreneur · Host of Cosmos Tech

Jean Frías is a Dominican mechatronics engineer and entrepreneur. He runs Cosmos Media Group and Cosmos Sistemas, telecommunications and electronic security companies founded in 1982, hosts the Cosmos Tech podcast and is part of the first Forbes 30 Under 30 list of the Dominican Republic (2026). He gives talks on cybersecurity, artificial intelligence and 3D printing to young people across the country.

Forbes 30 Under 30 DR, the country's first list

2017

the year I started 3D printing

Fewer than 17% of Dominican university students pursue STEM degrees (MESCyT, 2024). That is why I give these talks.

Available talks

TALK · MOTIVATION + 3D PRINTING

The future is printed today

My story, from taking fans apart to running a telecommunications company, plus a hands-on 3D printing demo: scale telecom towers, topographic maps of the country and parts students can touch. It ends with a question: what are you going to build?

TALK · CYBERSECURITY + AI

The future is protected today

An introduction to cybersecurity and the responsible use of artificial intelligence: how today's threats work, how to protect yourself and why the country needs more talent in this field. Delivered at the Indotel STEM Student Merit Award.

Companies

Format

- 45 to 90 minutes, in person.
- I bring 3D-printed pieces the audience can touch: towers, maps and rockets.
- I only need a projector and a microphone.
- Format, date and proposal are agreed in a short meeting.

Where I have been

- PUCMM
- UCNE · with INDOTEL
- ITESA
- Prado Oriental School
- Constanza City Hall

Next goal: all 31 provinces
